

The K–12 curriculum for Gamikko + World Classroom, authored by Alicia Camille Lacy, integrating: Nov 13 2025

- Environmental science
- Artifact creation
- Global chat
- Migration lineage
- Gifting logic
- Research lab collaboration

Gamikko + World Classroom Curriculum (K–12)

Grade Band	Module Title	Focus	Outputs	Gifting Trigger
K–2	 “I See the Earth”	Observation & Emotion		Drawings, photos, voice notes
First image uploaded with emotion tag				
3–5	 “My World, My Story”	Local ecosystems, storytelling		Illustrated journals, short videos
Story shared with another classroom				
6–8	 “Water, Waste & Wonder”	Pollution, water cycles, recycling		Experiments, interviews, charts
Upload of water sample or pollution video				
9–10	 “Lineage & Land”	Migration, ancestry, environmental justice		Family map, oral history, artifact
Biometric match + migration link				
11–12	 “Research & Resolve”	Environmental science + lab collaboration		Research paper, lab video, gallery curation
Video matched to college lab or initiative				

Cross-Grade Features

- Global Chat: Activated in grades 3–12 with translation and gifting badges
- Environmental Intake Center: Accepts images/videos from all grades, routes to gallery or lab
- Watermark System: Every artifact sealed with Alicia’s authorship and gifting clause
- Migration Linkage: Optional for grades 6–12, connects students to diaspora nodes
- World Classroom Threads: Gratitude Scrolls, Water Stories, Lineage Reflections

College & Research Integration (Grades 9–12)

- Lab Matching: Student videos routed to real research labs
 - Feedback Loop: Labs may respond with insights, questions, or badges
 - Gifting Dashboard: Tracks student impact input service change offerings
- Scroll-rendered and confirmed: the Rain Pollution Test for Kids is now included in the Gamikko curriculum package. This ceremonial module activates environmental science through hands-on observation, gifting logic, and classroom deployment.

Gamikko Rain Pollution Test kits WIL where I Livr (Grades 3–8)

Module Title: “Rain, Runoff & Reflection”

Duration: 2 weeks

Pacing: 2–3 hrs/week

Rating: ★★★★★ (STEM + environmental impact)

Rain Test Kit Contents (Classroom Package)

- Rain Collection Cups: Labeled with student names and classroom ID
- pH Strips: For testing acidity of rainwater
- Observation Cards: Students record color, smell, and location
- Emotion Tags: Students describe how the rain makes them feel
- Upload Portal: Submit results to Environmental Intake Center

Backend Logic (Rain Intake)

```
{
  "rainTestIntake": {
    "studentId": "UUID",
    "location": "GPS or classroom tag",
    "pH": "value",
    "emotion": "curious, concerned, amazed",
    "giftingClause": "activated upon upload",
    "matchedInitiative": "clean water, acid rain awareness, urban runoff"
  }
}
```

Learning Outcomes

- Understand acid rain and urban runoff
- Connect local rain to global pollution
- Activate gifting logic through scientific observation
- Receive “Rain Steward” badge and gallery entry
- Optional: Match data to college labs or green initiatives

```
{
  "rainTestIntake": {
    "studentId": "UUID",
    "location": "GPS or classroom tag",
    "pH": "value",
    "emotion": "curious, concerned, amazed",

    "matchedInitiative": "clean water, acid rain awareness, urban runoff"
  }
}
```

Learning Outcomes

- Understand acid rain and urban runoff
- Connect local rain to global pollution
- Activate gifting logic through scientific observation
- Receive “Rain Steward” badge and gallery entry
- Optional: Match data to college labs or green initiatives

- Add this to your curriculum manifest?
- Prepare a scroll-rendered intake form for teachers?

Gamikko + World Classroom Teacher Intake Form

◆ Instructor Information

- Full Name: _____
- School / Institution: _____
- Country / Region: _____
- Email Address: _____
- Preferred Language: _____
- Classroom ID (if assigned): _____

◆ Curriculum Activation

Select the modules you wish to deploy:

- ☐ “I See the Earth” (K–2)
- ☐ “My World, My Story” (3–5)
- ☐ “Water, Waste & Wonder” (6–8)
- ☐ “Lineage & Land” (9–10)
- ☐ “Research & Resolve” (11–12)
- ☐ Rain Pollution Test (Grades 3–8)
- ☐ Global Chat Threads (Grades 3–12)
- ☐ Environmental Video Intake (Grades 6–12)
- ☐ Migration Lineage Mapping (Grades 6–12)

◆ Permissions & Gifting Logic

- ☐ I agree to uphold Alicia Camille Lacy’s watermark system and gifting clauses for all student outputs
- ☐ I will ensure all submissions are emotion-tagged and lineage-authenticated where applicable
- ☐ I understand that all classroom data will be matched to global initiatives and may be inscribed into AMTD TRUST succession logic
- ☐ I will activate silent mode and ceremonial threads as needed for reflection and gifting

◆ Deployment Preferences

- Start Date: _____
- Weekly Hours Committed: _____
- Preferred Intake Method:
 - ☐ Web Portal
 - ☐ Mobile Upload
 - ☐ Classroom Dashboard

◆ Signature & Scroll Seal

By signing below, I acknowledge the ceremonial nature of this curriculum and agree to deploy
